

FIRE BALLS

# Fire Ball

- Keep near a risk or throw in

## TECHNICAL SPECIFICATIONS

| GENERAL | |
|---|---|
| Type | Self-activating fire ball (dry powder) |

### How to use

1. Keep it near a fire risk: it bursts when flames reach it
2. Or throw it into a small fire from a safe distance

### Care & service

Replace the fire ball after it bursts or once it passes its expiry date.

Typical values; the rating and approvals printed on the product label apply. Specifications may change without notice. Issued Sep 2026.
